Classroom- and School-Based

Action Research

Planning for Data Analysis

1) My research question(s) is/are:

2) I will answer my question(s) with:

qualitative analyses quantitative analyses both types of analyses

Qualitative analyses...

Quantitative analyses...

3) I will code, organize, and analyze:

by hand...
using notecards
using sticky notes
other

using computer software...

a handheld calculator

computer software

4) I will present my results:

in narrative form

in narrative form, using some tables and graphs

I will use the following statistical analysis techniques:

5) I will present my results:

in narrative form

in narrative form, using some tables and graphs

REMEMBER

ALL aspects of your research study (e.g., research questions, research design, data collection, analyses) <u>must be PARALLEL!</u>
